

Brisbane Golf Club MiScore

MiScore App Scoring Interface

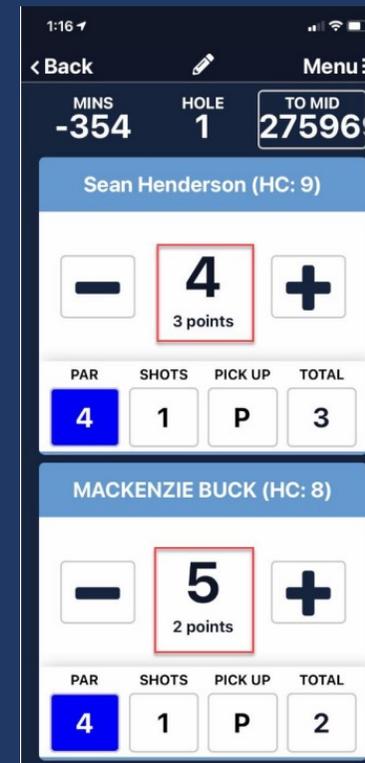

Individual Formats

Regardless of individual competition type (Stroke/Par/Stableford) players will need to initially select the player they will be marking for (similar to swapping physical scorecards). All of the players in the group on the timesheet will be presented and will be able to be highlighted and selected for marking

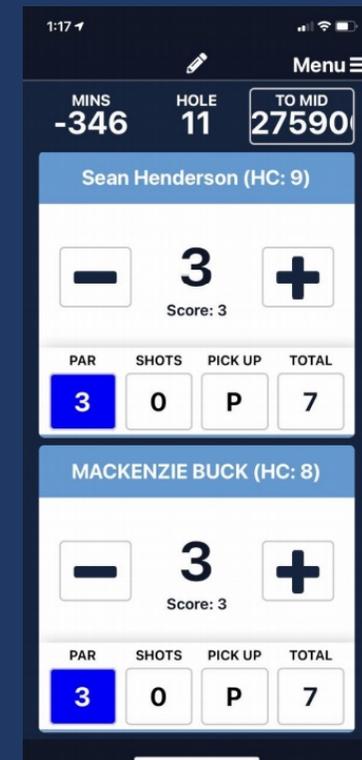

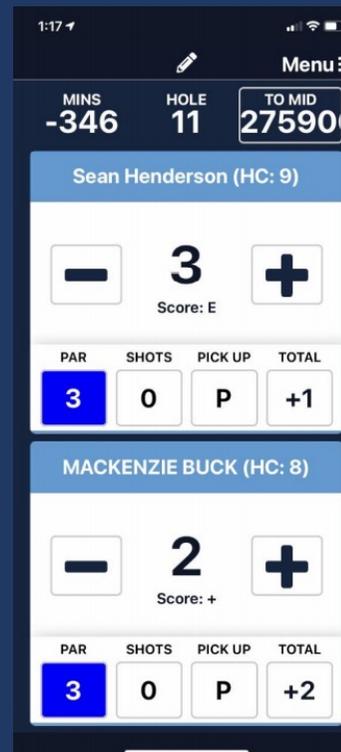

Individual Formats

In an individual **Stableford** competition this is the screen presented to the player: The player being marked will be at the top half of the screen and the player's own score will be on the bottom section. When using the MiScore App the player will use Plus or Minus buttons to indicate gross score recorded for the hole. **Stableford** points will be automatically calculated and a running tally will be shown under the Total Box (bottom right of each players section)

Individual Formats

The same process applies for both **Stroke** and **PAR** formats whereby the individual will mark the gross scores and the MiScore App will automatically convert to the relevant competition score and provide a tally of scores up until that point in the Total Box. PAR format Scoring on the left and Nett (Stroke) is the image on the right.

Individual Formats

On completion of the round, the player will be asked to provide a signature to verify scores being submitted are correct.

Four Ball Stableford

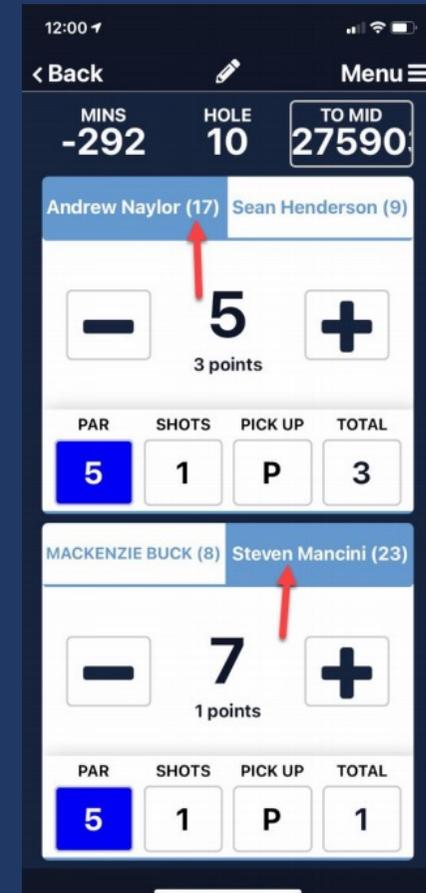

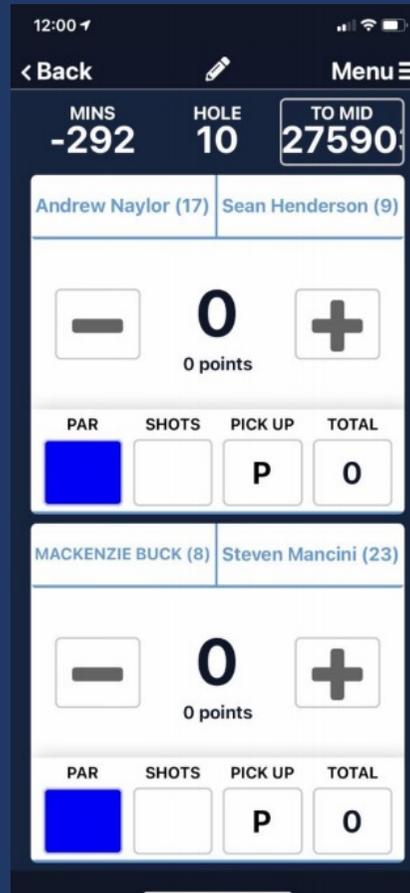

Players will first be presented their playing group and then will need to choose a partner for their team (screen on right has the player selected)

Then to continue to scoring press on the blue box at bottom of screen

Fourball Stableford

The screen on the left is scoring interface when the player who scored on the hole has not been selected (Hole PAR, Tee Colour and Shots is blank) Once a player is selected at the top of each team box the tee box is highlighted (blue in this example) and shots and stableford points are calculated

Fourball Stableford

Players will proceed scoring for 9 or 18 holes and then be presented with the signature and submission stage as below:

Foursomes

Partnerships for this game type are pre-determined by the position of the players on the timesheet eg: in a group of 4 - Cell 1 and 2 are a team and Cell 3 and 4 are a team. Players will be asked to select the pairing to mark and then can proceed to the scoring interface

Foursomes

The player will then enter scores for the foursomes pairing and mark scores for the other foursomes team in the group.

Ambrose (4 Player)

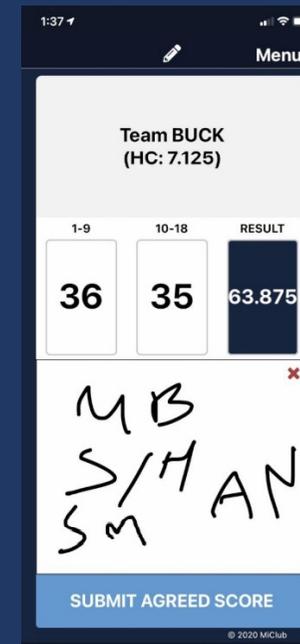

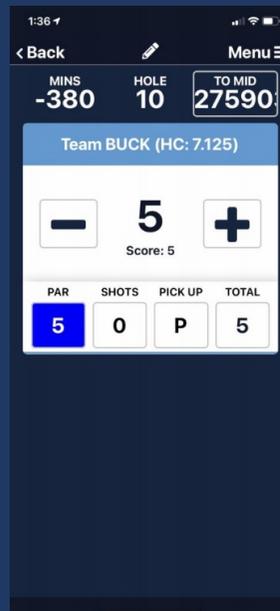

In a 4 person Ambrose in the MiScore App the first player in Cell 1 on the timesheet will become the “team captain” and the team will be referred to in the MiScore App as Team “ Surname” In this example “Team Buck” and team handicap is also displayed. Only one player is required to score and the individual scoring the team will then press continue to scoring at the bottom of the screen to proceed.

Ambrose (4 Player)

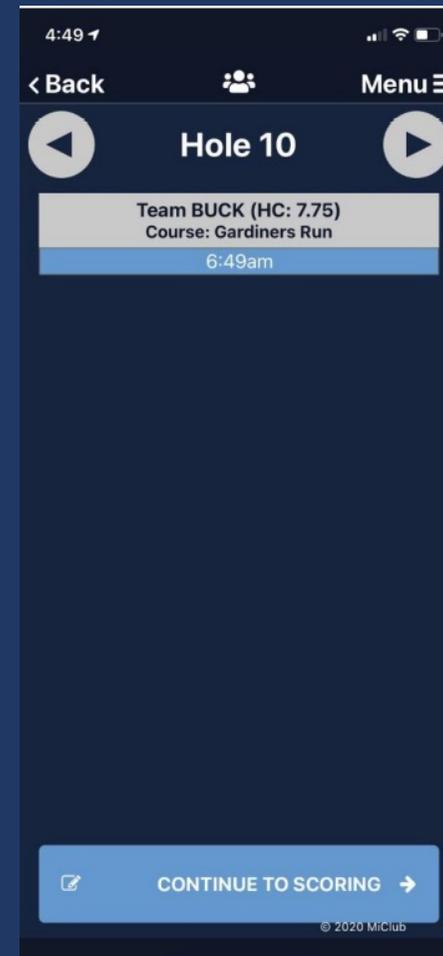

The standard MiScore App scoring interface will be used for the Ambrose format and as normal the nominated scorer will select the gross score for the team on each hole. Total box is gross scores until all scores are completed and a nett score is presented on score submission.

Players will proceed scoring for 9 or 18 holes and then be presented with the signature and submission stage as below:

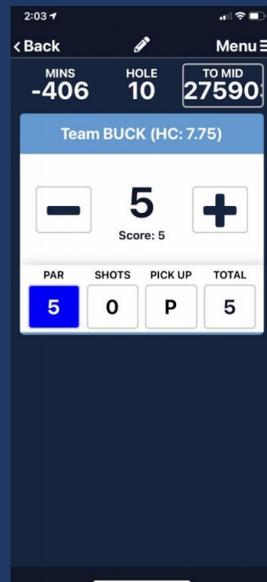

Ambrose (2 Player)

In a 2 person Ambrose in the MiScore App the first player in Cell 1 on the timesheet will become the “team captain” and the team will be referred to in the MiScore App as Team “Surname”. The same applies for team 2 and players in cell position 3 and 4. In this example “Team Buck” and team handicap is also displayed. Only one player is required to score and the individual scoring the team will then press continue to scoring at the bottom of the screen to proceed.

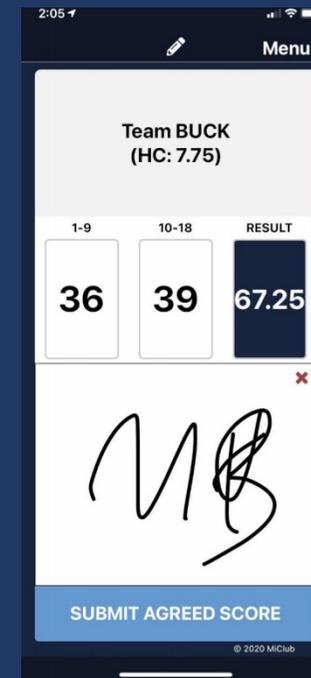

Ambrose (2 Player)

The standard MiScore App scoring interface will be used for the Ambrose format and as normal the nominated scorer will select the gross score for the team on each hole. Total box is gross scores until all scores are completed and a nett score is presented on score submission. This format is self scoring only, there is no marking of the other 2 person team in the group.

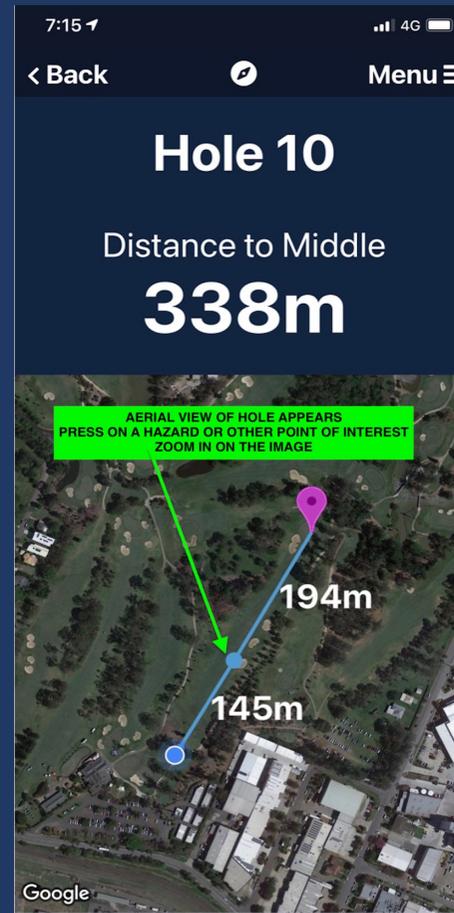

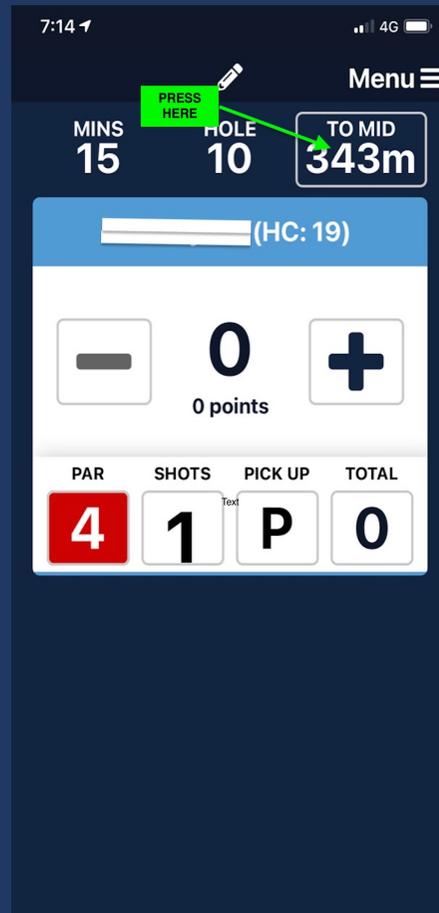

Players will proceed scoring for 9 or 18 holes and then be presented with the signature and submission stage as below:

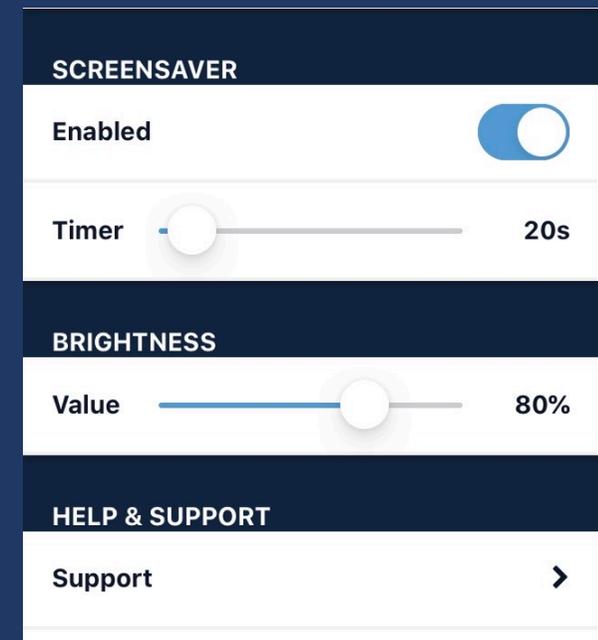

Distance to Green Feature

Q: How can I measure distance to green?
A: Press the TO MID button. An aerial view of the hole will appear. You can then press on a hazard or any other point on the hole. The distance will be calculated and shown on the screen. You can zoom in for greater detail.

FAQ – Battery Saver Tips

- Fully charge your device prior to use
- Close all other applications that are running in the background
- Try LOW POWER MODE option on your device.
- Set your device to DO NOT DISTURB during play.
- Do NOT attempt to use the app in FLIGHT or AIRPLANE mode as data connection between the clubs golf system is required - even during the round.
- If you have a powered motor buggy, check if the unit has a USB charger available to connect up too.
- Try a lower setting for the Brightness level in the Apps menu settings. By default it is 80% backlight usage however you can try a lower % and adjust until you can still visually see the app interface in the sun.
- If you find that your devices battery health is low, you can purchase a back up battery unit which can be attached to your phone to receive additional power during the round.
- Leave the screen saver enabled (on by default within the app). This is designed to reduce the backlight brightness when the app is not used after X seconds thus saving battery usage. Simply touching the screen will get you back to the score screen

FAQ / Usage Tips

Q: How can I see what the index value of a hole is?

A: Press the Shots value to reveal a popup of the index of the hole or press the cumulative score total value box which acts as a button to the *full scorecard* interface. You'll find the indexes per hole as well as gross and net totals during the round

Tee Block:		White Front 9		
Hole	Par	Index	Score	Points
4	4	7	P	0
5	3	9	5	1
6	5	11	6	2
7	3	13	4	2
8	4	15	4	3
9	4	17	5	2
Total	36		41	15

Q: Can I turn off the GPS/Location service?

A: Under the Apps menu/settings is an option to turn 'Locations Enabled' off. This will mean that you won't receive distance to the Pin or Green while in use. You can turn this back on at any stage though.
